P5

COMPACT GANTRY PALLETIZER GRIPPING/TRANSFER

A GRIPPING/TRANSFER PALLETIZING SOLUTION TO MEET YOUR SPECIFIC REQUIREMENTS:

Technical characteristics

- Ground level access into the machine; lower section is left free thanks to the gantry structure
- Minimum footprint: palletizer perimeter dimensions as near as possible to the pallet dimensions
- Overall machine height reduced and visibility/appearance improved by using a telescopic mast

Advantages

- Naturally wide working envelope within a compact frame thanks to the gantry design
- SecurBox®: transparent sliding cubicle enabling the operator to evacuate a loaded pallet safely without stopping the machine cycle; palletization continues on the second station

Performance

- Payload: up to 12kg with tooling
- Speed: up to 7.5 cycles per minute depending on the application
- Versatility: 1, 2 or 3-station model with optional pallet gripping, layer card insertion, etc.
- Option: PC HMI/remote maintenance kit

- Reduced footprint
- Modular and versatile solution in terms of speed and number of palletizing stations
- Clear, easily accessible machine
- Enhanced ergonomics and safety

Gebo Cermex works in partnership with Sidel as part of The Sidel Group. Together, we are a leading provider of equipment and services for packaging liquid, food, home and personal care products in PET, can, glass and other materials.

With over 37,000 machines installed in more than 190 countries, we have nearly 170 years of proven experience, with a strong focus on advanced systems, line engineering and innovation. Our 5,000+ employees worldwide are passionate about providing complete solutions that fulfil customer needs and boost the performance of their lines, products and businesses.

Delivering this level of performance requires that we continuously understand our customers' challenges and commit to meeting their unique goals. We do this through dialogue, and by understanding the needs of their markets, production and value chains. We complement this by applying our strong technical knowledge and smart data analytics to support maximum lifetime productivity to its full potential.

We call it *Performance through Understanding*.
