SINGLE-LINE LAYER BY LAYER PALLETIZER

A SINGLE-LINE LAYER BY LAYER PALLETIZING SOLUTION TO MEET YOUR SPECIFIC REQUIREMENTS:

Compact footprint & reliability

- Machine compactness and ergonomic design for this tried-and-tested monobloc unit
- Simple design, limiting machine downtime
- Integration of transparent guards within the machine frame for improved safety

High quality/price/performance ratio (total cost of ownership)

- Optimized ROI thanks to the industrialized, standardized machine design
- Low-maintenance (quick and simple operations)
- Easy to use, minimal training and technical documentation required
- Servo-driven step-by-step system for forming product rows (Electronic Spacer)

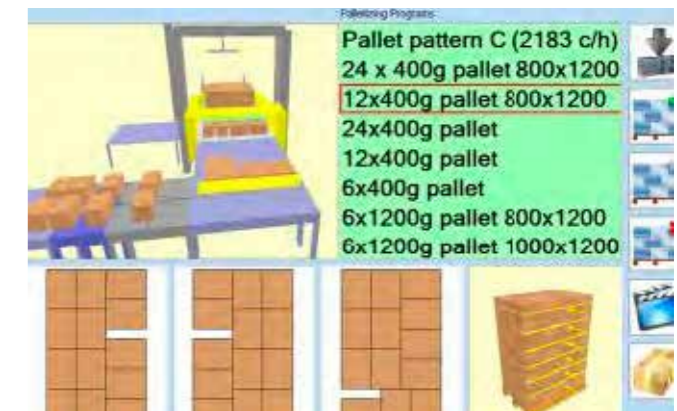

Flexibility & machine versatility

- Handling of RSCs, wrap around blanks, shrink-wrapped packs with or without corrugated supports for the food, wine and spirits, soft drinks, home and personal care market segments.
- **Thanks to Pal Designer® software for simulation and configuration of pallet patterns (option), the user has absolute freedom to create new formats.**
- Automated format creation and changes via HMI
- 3D simulation with performance results
- Versatile machine throughout its service life

Additional modules

- Automatic layer card insertion and empty pallet infeed
- Integrated pallet wrapping
- Automatic outfeed of loaded pallets on conveyors or AGV (motorized conveyor)

- Compact footprint
- Speeds of up to 1 400 packs per hour
- Maximum payload : 250 kg
- High quality/cost/performance ratio (Total Cost of Ownership)
- Optional pallet pattern creation and modification software (Pal Designer®) giving users absolute freedom

Gebo Cermex works in partnership with Sidel as part of The Sidel Group. Together, we are a leading provider of equipment and services for packaging liquid, food, home and personal care products in PET, can, glass and other materials.

With over 37,000 machines installed in more than 190 countries, we have nearly 170 years of proven experience, with a strong focus on advanced systems, line engineering and innovation. Our 5,000+ employees worldwide are passionate about providing complete solutions that fulfil customer needs and boost the performance of their lines, products and businesses.

Delivering this level of performance requires that we continuously understand our customers' challenges and commit to meeting their unique goals. We do this through dialogue, and by understanding the needs of their markets, production and value chains. We complement this by applying our strong technical knowledge and smart data analytics to support maximum lifetime productivity to its full potential.

We call it *Performance through Understanding*.
