AUTOMATIC LAYER BY LAYER PALLETIZER
A PALLETIZING SOLUTION TO MEET YOUR SPECIFIC REQUIREMENTS:

Performance and productivity
- A complete series of conventional palletizers adapted to the market/product mix
- Peripheral modules complete the equipment: sheet insertion on the pallet and between layers, automatic pallet distribution, pallet handling and transfer...
- An extremely user-friendly HMI provides direct access to the various parameters of the installation
- No interruption in flow between two production runs
- Pal-Designer software for creating and simulating programs in real time
- Instant programming of patterns

Reliability and eco-design
- Fitted with an "electronic spacer" layer preparation system, the PAL-PACK 4000 palletizer series guarantees total respect of your product, irrespective of type and pallet pattern
- Layers are centered on the pallet to ensure even weight distribution on the pallet perimeter
- Fully compliant with NF01-005 standard
- Identification of the environmental profile by ATEP V2 standardized software
- Reduction in energy consumption, recyclable equipment

Ergonomics and modularity
- Easy operator access with maximum safety
- Minimum footprint
- Layer positioning module on dual platform model fitted with a front slat table which rolls up
- Customized, upgradeable solution

- Modular and industrial design
- Speed up to 280 layers/h
- Saving in energy
- Eco-design
Gebo Cermex works in partnership with Sidel as part of The Sidel Group. Together, we are a leading provider of equipment and services for packaging liquid, food, home and personal care products in PET, can, glass and other materials.

With over 37,000 machines installed in more than 190 countries, we have nearly 170 years of proven experience, with a strong focus on advanced systems, line engineering and innovation. Our 5,000+ employees worldwide are passionate about providing complete solutions that fulfill customer needs and boost the performance of their lines, products and businesses.

Delivering this level of performance requires that we continuously understand our customers’ challenges and commit to meeting their unique goals. We do this through dialogue, and by understanding the needs of their markets, production and value chains. We complement this by applying our strong technical knowledge and smart data analytics to support maximum lifetime productivity to its full potential.

We call it Performance through Understanding.
