

PARMA, ITALY

ASEPTIC FILLING PRODUCT SUPPORT - AUTOMATION EXPERT

YOUR OPPORTUNITY

Aseptic Filling Product Support Automation Expert is part of Aseptic Filling Product Support Team. The job is taking place both in backoffice and on field. Main function in the office is to secure the operational follow up & technical support of all aseptic fillers (combi and stand-alone configuration), associated trade equipments (capper, inspection system, printer, nitrogen doser) and 3rd party line equipments (EOL, conveyor...) on automation side. The expert could also be scheduled to validate internally and externally the introduction of modifications and variants and of new products in the portfolio, concerning the aseptic filling product, in coordination with the other relevant teams. He is finally accountable to execute RCA concerning automation platform, following issue resolution process, supporting the consequent plan of recovery and corrective actions, interacting with the other departments.

YOUR SCOPE

- Secure troubleshooting on aseptic fillers and associated trade equipment, concerning automation platform
- Support Global Product Training in the creation, update and revision of technical questionnaires related to FSE Qualification Program
- Be part of validation process for the introduction of modifications, variants, O&U, new products, concerning aseptic filling automation
- Support the availability of field methods for installation, qualification, technical analysis, repairing and maintenance activities
- Secure performances of commercially released aseptic filling equipment, concerning automation platform
- Secure the application of automation retrofits on the aseptic filling product installed base, where necessary
- Be part of hotline team for weekend duties, in case of availability for the service
- Execute RCA on aseptic filling equipment automation issues, implementing the consequent plan of recovery and corrective actions
- Act as "Assessor" of the FSE/s subject to qualification program during the practical assessment module, mainly at the customer site, releasing the relevant evaluation report on time/in full
- Support and execute regional aseptic product support automation activities for ECA region
- Participate to aseptic equipment FAT (workshop) & installation, start up, validation, commissioning and services (onsite)
- Support filler automation FSE during start up and commissioning of aseptic equipment
- Manage the treatment and the resolution of aseptic filler automation NC and PER through SIN-CRO tool

YOUR PROFILE

Level of education and languages:

- Bachelor Degree or equivalent
- Excellent English, written and spoken;
- Fluency in French is an advantage;

Required experience and skills:

- 5 years at least of technical assistance, field experience or engineering in packaging equipments (automation side)
- knowledge of sensitive/aseptic technology is a plus
- knowledge of filling product and process is a plus
- electrical fundamentals (safety equipment's, sensors, motion, servo drivers, inverters...)
- knowledge of PLC platform (Siemens S7 SCL-Graph-Awl, B&R, Rockwell Automation)
- knowledge of HMI (ZenOn, Citec and/or InTouch) and Motion platforms (Danfoss and Elau)
