Tetra Laval gives humanitarian help to Ukraine

Tetra Laval, the group which comprises Tetra Pak, Sidel and DeLaval is donating EUR 2 million to humanitarian support to Ukrainians in Ukraine and those that have been forced to flee to neighbouring countries.

- We are deeply distressed by the war in Ukraine and join all parties calling for peace. To reflect our sense of values, we will do what we can to support local humanitarian efforts, says Lars Renström, Chairman of the Tetra Laval Group.

EUR 1 million is donated to UNICEF's Drive for Ukrainian Children to support of the more than half a million children already affected by the war. A further EUR 1 million will be allocated to secure safe food distribution for refugee camps mainly in collaboration with Tetra Pak's local customers.
