PATENTED PRODUCT COLLATING SYSTEM

PRODUCT COLLATING SOLUTIONS TO MEET YOUR SPECIFIC REQUIREMENTS:

Technical characteristics

- Module which can be independent or integrated into the product collating section of the case packer
- In-line product infeed on a conveyor, without accumulation, guaranteeing optimum product protection
- Products spaced out by servo-driven lateral bands which can be adjusted to suit the product shape and resistance
- Beam+comb servo-driven on 2 axis to form rows with high repeatability and accuracy in product placing

Advantages

- Quick format changeover by easy and ergonomic dismantling of the comb and counter-comb designed to pre-collate the products and form the batch
- System especially economically viable for 3 formats or more
- Cost of adding a new format reduced by the low number of change parts
- Reduction in change part storage space
- Speed: up to 250 products/min depending on the type of products and collations

- All types of conveyable products
- Optimum product protection, whatever the product rigidity and thickness
- Continuous solution with no accumulation, nor jamming
- High speed

Sidel is a leading provider of equipment and services solutions for packaging beverage, food, home and personal care products in PET, can, glass and other materials.

With over 40,000 machines installed in more than 190 countries, we have nearly 170 years of proven experience, with a strong focus on the factory of tomorrow with advanced systems, line engineering and innovation. Our 5,500+ employees worldwide are passionate about providing solutions that fulfil customer needs and boost the **performance** of their lines, products and businesses.

Delivering this level of performance requires that we stay flexible. We continuously ensure we **understand** our customers' changing challenges and commit to meeting their unique performance and sustainability goals. We do this through dialogue and by understanding the needs of their markets, production and value chains. In turn, we apply our solid technical knowledge and smart data analytics to ensure lifetime productivity reaches its full potential.

We call it **Performance through Understanding**.
