BEER MARKET

COMPLETE LINE IS A COMPLETE SOLUTION

Sidel

GLASS SOLUTIONS

Crate washing

CRATE WASHER

- High efficiency washing solutions offering energy saving and optimized
- Up to 6,000 crates per hour
- Available in 1 or 2-tunnel configurations

Decrating DECAROBOT

- Automatic decrater specifically designed for returnable glass bottling lines with rapid format
- Bottle handling thanks to individual pneumatical grippers, adapted to various sizes of crates
- Movements controlled brushless motors

- Continuous wrap around case packer delivering a 98% efficiency with 9 servo-motors High-speed: up to 65 cycles per
- 2-step blank destacking process

INCAROBOT AUTOMATIC CRATER

- Automatic crater designed for glass bottling lines with rapid format changeovers
- Bottle handling thanks to individual pneumatical grippers, adapted to various sizes of crates
- Movements controlled by selfbraking brushless motors

Bottle washing

Product caring and

resource efficient bottle

From 15,000 to 100,000

washing in a flexible

HYDRA

machine

bottles / hour

Modular design

sections, rinsel

(prewash, detergent

Labelling **EVODECO** COLD GLUE

- Ultra hygienic fully washable steel structure From 6,000 bph to 81,000 bph
- Cold glue technolay for partial pre-cut labels
- EvoDECO Multi modular configuration available for utmost labelling flexibility

EVODECO ADHESIVE

- Top quality label application From 6,000 bph to 66,000 bph
- Pressure sensitive for self-adhesive plastic or paper labels
- EvoDECO Multi modular configuration available for utmost labelling flexibility

GEBO OPTIDRY

- High precision and low energy consumption for perfect drying efficiency
- Speeds depending on the application
- Optimal drying thanks to adjustable plenum positioning and unique nozzle design

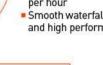

- Optimal flavour and bacteriological quality with unprecedented low energy
- Most accurate thermal treatment for required pasteurization effect
- Unsurpassed water savings thanks to Swing® water cycle control device

Crowns feeding

GEBO OPTIFEED CROWN

- 100% closure compliance at capper infeed thanks to embedded vision control
- From low to high speed up to 92,000 closures
- Smooth waterfall sorting principle and high performance vision control technology

EVOFLEX PACKS/CRATES

- Fastest low-level palletiser on the market: up to 12 layers
- Streamlined technology based on a double lifting unit on a single central column for a greater machine accessibility
- Advanced and user-friendly experience with tablet-based multitouch panel PC

EVOFILL GLASS

- Delivering premium beer bottles with greater format flexibility
- From 25,000 to over 80,000 bottles
- Electronic level probe filling

EUROSTAR EV

- Highly optimised filling performance
- From 25,000 to over 80,000 bottles per hour
- Electro-pneumatic level filling

EUROSTAR HS Reliable and simple

- filling performance
- From 25,000 to over
- 80,000 bottles per hour
- Mechanical level filling

Depalletising SWEEPOFF A

- High level automated depalletizer for loose bottles with automated pad/frame/hood/pallet handling
- Proven technology delivering high outputs up to 144,000 cans per hour
- Simple design to guarantee operation efficiency and high performance

Depalletising **EVOFLEX**

- Fastest low-level columnar depalletiser on the market
- Double lifting unit on a single central column for a greater machine accessibility
- Advanced and user-friendly experience with tablet-based multi-touch panel PC

Conveying

GEBO AQ-HC

- High capacity and pressureless mass accumulation particularly suited to high speed lines with large production flow variations
- Up to 120,000 containers per hour
- Simple mechanical design with mobile end quide

Conveying

GEBO AQFLEX

- Best performance thanks to high flexibility product handling and accumulation in an all-in-one
- Fastest single-file accumulation from 1,000 to 100,000 products
- Smart product handling principle coupled with proven logic motion technology

PET SOLUTIONS

Labelling

EVODECO ADHESIVE

- Top quality label application From 6.000 to 66.000 bottles per hour
- Pressure sensitive for self-adhesive plastic or paper labels
- EvoDECO Multi modular configuration available for utmost labelling flexibility

Labelling

EVODECO COLD GLUE

 Hygienically designed for consistent uptime

GEBO OPTIDRY

perfect drying efficiency

- Up to 81,000 bottles per hour
- Fully washable design, automatic cleaning system
- EvoDECO Multi modular configuration available for utmost labelling flexibility

High precision and low energy consumption for

Optimal drying thanks to adjustable plenum

Speeds depending on the application

positioning and unique nozzle design

Blowing

EVOBLOW

- Top consistent bottle quality
- From 12,000 bph to 90,000 bph
- Reduced electricity and air consumption

Preform feeding **EASYFEED**

- Safe and easy to operate
- Great preform integrity
- Maximum uptime and flexibility

- Preform feeding, Blowing, Filling and Cap feeding in one integrated solution
- From 20,000 to 90,000 bottles per hour
- Compact footprint

Coating ACTIS

- Increased shelf life and lightweighting
- Up to 40,000 bottles per hour
- Optimal production uptime and operational performance

Pasteurizing SWING

- Optimal flavour and bacteriological quality with unprecedented low energy consumption
- Most accurate thermal treatment for required pasteurization effect
- Unsurpassed water savings thanks to Swing® water cycle control device

Cap feeding **GEBO OPTIFEED**

- 100% cap compliance at capper infeed thanks to embedded vision control
- From low to high speed up to 92,000 caps per hour
- Smooth waterfall sorting principle and high performance vision control

technology

Filling SF

- Highly optimised filling performance
- Electronic filling technology

EVOFILM

- High-quality shrink- wrapped packs Easy operability and flexibility,
- 5-minute fully automatic changeover
- Robustness and maintainability for speed up to 120 cycles per minute

Conveying

- **GEBO AQ-HC**
- High capacity pressureless accumulation particularly suited to high speed lines with large production flow variations
- Up to 120,000 bottles per hour
- Simple mechanical design with mobile end quide

Conveying **GEBO AQFLEX**

- Best performance thanks to high flexibility product handling and accumulation in an all-in-one solution
- Fastest single-file accumulation from 1,000 to 100,000 bottles per hour
- Smart product handling principle coupled with proven logic motion technology

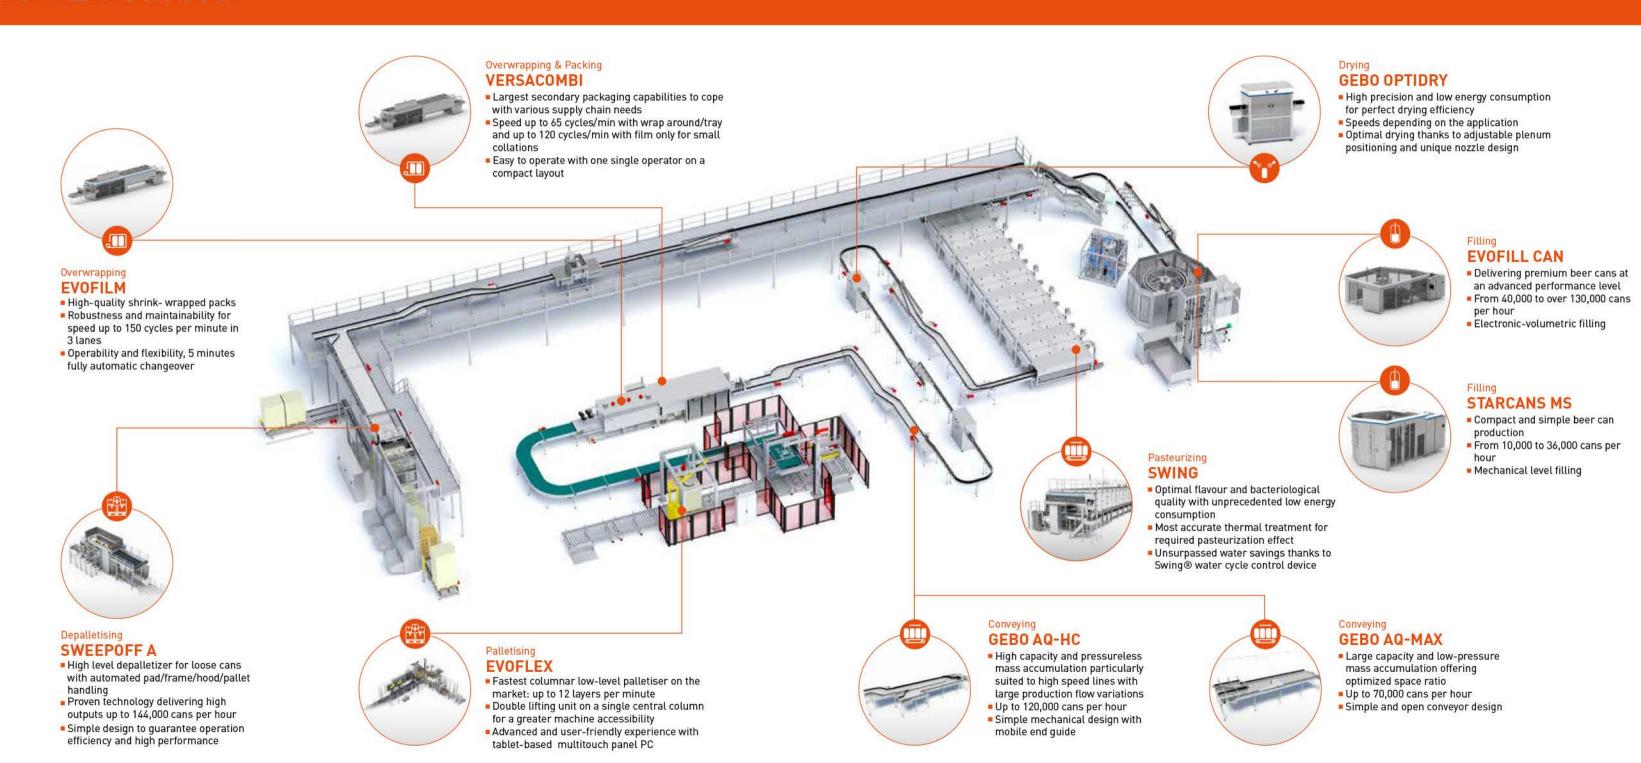

COLUMNAR PALLETISER Fastest low-level columnar palletiser on

- the market: up to 12 layers per minute Double lifting unit on a single central
- column for a greater machine accessibility
- Advanced and user-friendly experience with tablet-based multi-touch panel PC
